# Brief

**Create a web app.**

Using any language, create and host a web application! If you're not sure where to start, you can think about this

- What am I interested in?
- Which companies do I want to work at?
- What do I have good experience/strong in?

Feel free to use any online templates. You can work **individually** or in a **group**.

## Instructions

1. **Web App**
2. **Report**
    a. Background of application
        i. History/Research/Personal interest
    b. Technical Features
    c. Diagrams/Brainstorm - Wireframe, illustration etc
    d. Reflection
3. **Presentation**

# Guidelines

- Reports have no max/min limit. Make sure your report is well structured with titles, consistent styling throughout and relevant citation
- Presentations have no max/min limit. General presentation skills such as voice, tone, content, engagement with audience is graded

# Submission Guidelines

## Naming conventions

Firstname_Lastname_Assessment5

## Submission structure

A report which also contains the link to the web app

# Submission Policy
